

atlantico

Atlantico door phone. More than just an exercise in style. It is the pinnacle in design.

Imagine a home, your home. Where you have that last detail to choose to make your home perfect.

You have thought about and planned even the smallest detail. Including the colour schemes and accessories.

Is there something missing? Are you thinking of that finishing touch that everybody will notice?

Well, here is Atlantico that will put a new prospective on things .

Yes, this is Atlantico and Urmet. Atlantico revolutionises the concept of a door phone systems. Its form was designed by Architect Michele De Lucchi to enhance the simplicity and essentiality of its lines.

Atlantico's unique design is the result of in-depth ergonomic human hand studies.

Because Urmet understands that design should not only look good but also be intelligent.

Atlantico door phone Lines that are the pinnacle in design.

The lines of Atlantico are the pinnacle in terms of clean and pure forms. But, the exceptional beauty of the door phone design is combined with the perfect logic of its technology. From a technical point of view, Atlantico presents no installation problems and easily adapts to all common systems whether "4+n" or "1+1".

Maximum simplicity, also promoted by the handset with cable and telephone-style connector; the sliding track terminal strip for connection to the system and the telephone-style hook lever switch.

Mute + Led Kit:
green light, enable;
red, entrance
door open.

**Telephone plug at
the base of the door
phone.**

Ergonomic handset.

DOOR PHONE

- ■ **Ref. 1133** White electronic door phone with door lock release key. White ABS case.
- ■ **Ref. 1133/1** White electronic door phone with door lock release key and 1 service key. Pre-engineered for insertion of another 2 independent keys that can be used for intercom systems or auxiliary services (call to the entrance switchboard, opening of a secondary electric lock, etc.). White ABS case.
- ■ **Ref. 1133/10** White electronic door phone with activation key on the hand-set and door lock release key. The voice communication key, which must be pressed during the conversation, avoids any disturbance to other door phones if the hand-set has not been replaced correctly. White ABS case.
- ■ **Ref. 1133/20** White electronic door phone with 2 leds, 1 switching device. Makes it possible to mute the sound of the door bell, to check whether the entrance door has been left open through lighting up of a led, to automatically release the electric lock when the call is forwarded (particularly useful for doctors during surgery hours). White ABS case.
- ◆ ▲ **Ref. 1133/35** White electronic door phone with door lock release key and secrecy of conversation for "1+1" wire systems

ACCESSORIES

- ◆ **Ref. 1133/56** Mute key + led kit. Makes it possible to mute the sound of the door bell, switching on a green led to indicate that muting has been activated and, on pre-engineered systems, to check whether the entrance door has been left open through lighting up of the red led.
- ◆ **Ref. 1132/54** Three tone chime kit. This device transforms the normal ringer into a three-tone chime. 12VDC power is required - Intake: 5 µA stand-by - 250 mA ringing
- ◆ **Ref. 1133/50** Table-top mounting conversion kit.
- ◆ **Ref. 1132/53** Adjustable ringer volume kit. This device can be used to adjust the volume of the ringer to three levels (low, medium and high).
- ◆ **Ref. 1133/55** Set of 10 additional keys.
